

Elite Wrought Iron

**UNIT 3-48 KREMZOW ROAD
BRENDALE, BRISBANE QLD 4500
PHONE: 0400 455 188
WEB SITE: www.elitewroughtiron.com.au
EMAIL: info@elitewroughtiron.com.au**

Throughout history, Iron has been shaped by the Blacksmith, an expert craftsman. It is a tradition not easily replaced or forgotten. Elite Wrought Iron has the ability to produce such items of elegance. This catalogue is a selection of what may be produced. If you have your own design, fax it to us for appraisal.

Sliding Gate Block
NB57-03 – White
NB57-04 – Black

Detail A

Sliding Gate Block is designed for sloping and uneven driveways. As per Detail A, you can use the Sliding Gate Block on a 75mm square post and use two 40 x 20mm angles for the Block to slide up and down.

If you are coming off a block wall you would use two 'Z' profile sections on one flange of the 'Z', you would bolt to wall, and the other flange the Block would slide on. For this work you will need a 40 x 25 x 2mm channel screwed or welded to the gate. (Channel not supplied).

NB57-05 One pair of 40 x 25 x 3mm Angles 300mm long.

NB57-06 One pair of 20 x 25 x 20mm 'Z' Profile 300mm long.

NB57-07 One piece channel 300mm long.

Cantilevered Sliding Gate System

THIS SYSTEM COMES IN THREE DIFFERENT SIZES –

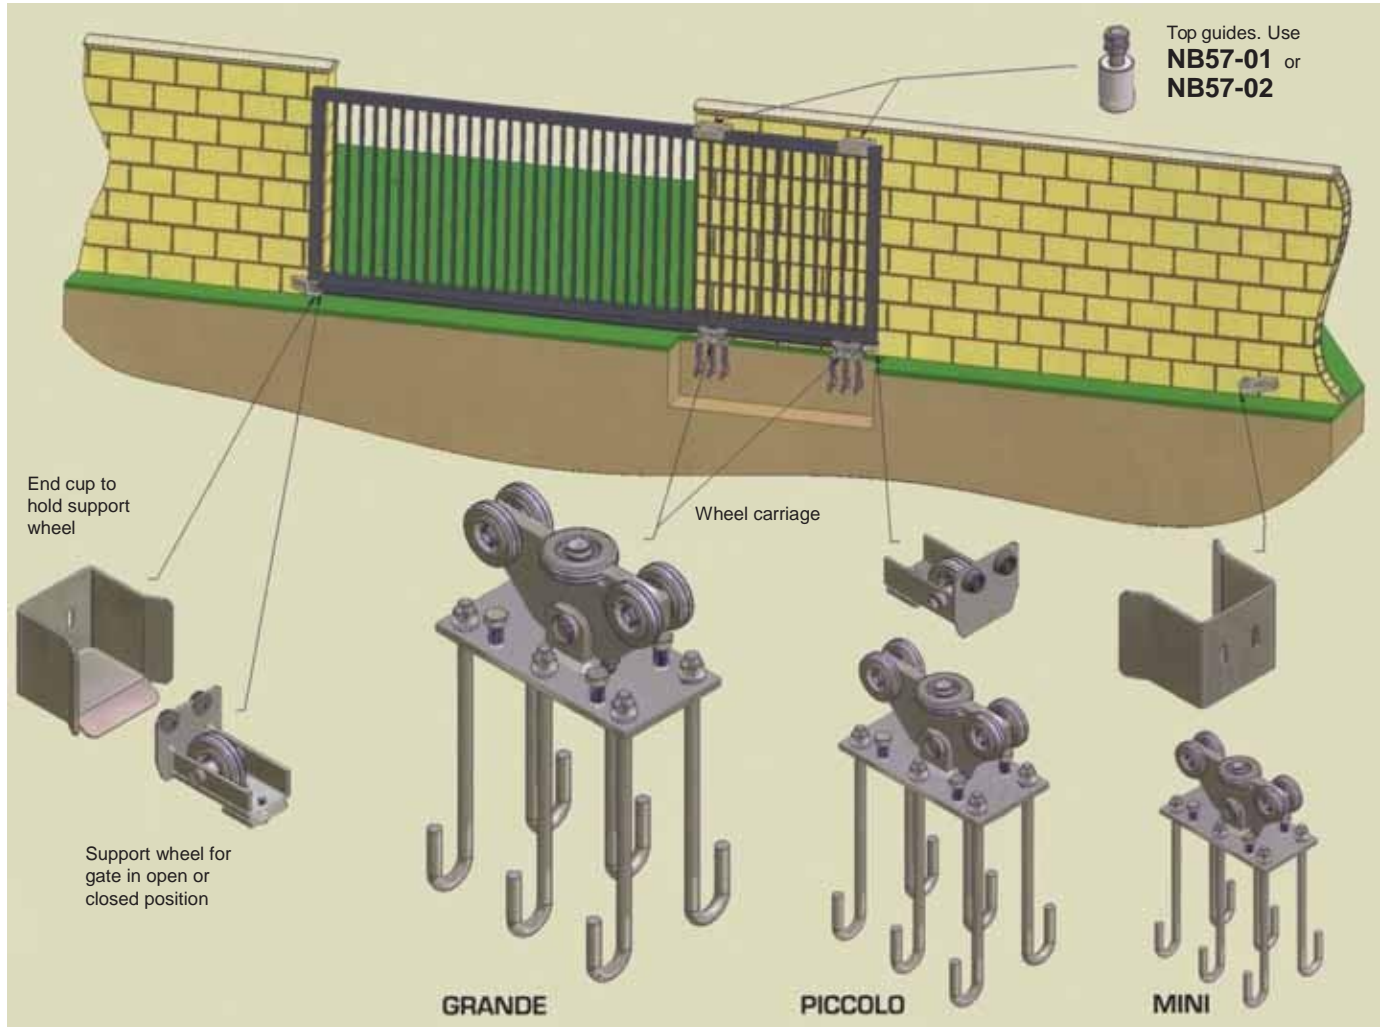

“MINI” Can support a gate to five metres and weight of 350kg

“PICCOLO” Can support a gate to six metres and weight of 400kg

“GRANDE” Can support a gate to seven metres and weight of 450kg

The instruction manual must be adhered to when calculating position of wheel carriage positioning.

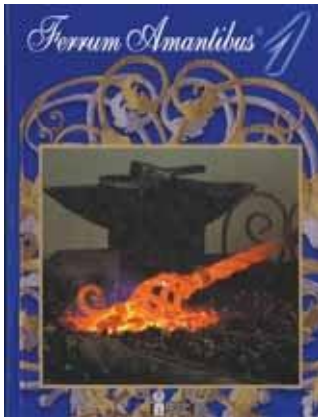

The weight of the channel affixed to the bottom of the gate is calculated in this formula

Bottom channel which must be welded or bolted to bottom rail of gate
